Write a Java program which would take two values through command line argument and print the sum of the two value.

```
class assignment
{
        public static void main (String [] args)
        {
                int a, b;
                int sum;
                a = Integer.parseInt (args[0]);
                b = Integer.parseInt (args[1]);
                sum = a+b;
                System.out.println (" Sum:"+ sum);
        }
}
```

**assignment - Notepad**

File  Edit  Format  View  Help

```
class assignment
{
        public static void main(String[] args)
        {
                int a,b;
                int sum;
                a=Integer.parseInt(args[0]);
                b=Integer.parseInt(args[1]);
                sum=a+b;
                System.out.println("Sum="+sum);
        }
}
```

**Administrator: Command Prompt**

```
C:\Users\Admin\Desktop\notes\JAVA\upgrade>javac assignment.java

C:\Users\Admin\Desktop\notes\JAVA\upgrade>java assignment 2 4
Sum=6

C:\Users\Admin\Desktop\notes\JAVA\upgrade>java assignment 100 200
Sum=300

C:\Users\Admin\Desktop\notes\JAVA\upgrade>
```
